Product Description

Fang Power FX400-XL Predator

- **Engine and Performance:** At the heart of the FX400-XL Predator is a powerful 4-stroke, single-cylinder, water-cooled engine. This engine delivers an impressive 25 horsepower at 6500 rpm, thanks to its SOHC (Single Overhead Camshaft) configuration and a compression ratio of 10.0:1. The engine's fuel delivery system utilizes a fuel pump carburetor or EFI, ensuring efficient fuel management and performance.
- **Transmission and Drive System:** The FX400-XL Predator features a constantly variable transmission (CVT) with a straightforward gear selection of forward and reverse single speed. The 4×2 driveline type and shaft drive system provide consistent power delivery and stability, making it suitable for various terrains.
- **Ignition and Electrical System:** The UTV uses a D.C.D.I (Direct Current Digital Ignition) system for reliable starting performance. It is equipped with headlights offering high and low beams, brake lights, and left/right signal lights for enhanced visibility and safety. The electric start system ensures convenience for the rider.
- **Brakes and Suspension:** For superior safety and comfort, the FX400-XL Predator is equipped with dual hydraulic disc brakes (220mm) on both the front and rear, providing excellent stopping power. The suspension system features a double A-arm suspension at the front and the innovative Fang Power 4-Link® bar suspension at the rear, ensuring a smooth and controlled ride by effectively absorbing shocks.
- **Design and Comfort:** The FX400-XL Predator boasts a high ground clearance of 300mm (11.8 inches) and a wheelbase of 1980mm (78 inches). It has a fuel capacity of 9.5 liters (2.1 gallons) and can reach a top speed of 75 km/h, making it ideal for various outdoor adventures. The UTV's dimensions (L×W×H) are 3360x1450x1750mm, providing ample space and comfort for the rider and passenger.
- **Tires and Wheels:** The UTV is fitted with sturdy front and rear tires sized 25×8-12 and 25×10-12, respectively, mounted on alloy rims. The front and rear tread measurements are 1250mm (49.2 inches) and 1150mm (45.2 inches), respectively, ensuring excellent traction and stability on diverse terrains.
- **Dimensions and Warranty:** The FX400-XL Predator measures 3360mm in length, 1450mm in width, and 1750mm in height, with a packing size of 29800x1400x815mm. It has a dry weight of 500kgs and a gross weight of 560kgs. The UTV comes with a 6-month manufacturer's warranty, offering peace of mind to the owners.
- **Safety Features:** Safety is a priority with the FX400-XL Predator, which includes driver and passenger seat belts, as well as driver and passenger safety net restraints, ensuring a secure ride for all occupants.

- **Conclusion:** In conclusion, the FX400-XL Predator UTV is a versatile and powerful vehicle designed for both utility and adventure. With its advanced engine, superior suspension, and robust design, it is an excellent choice for those looking to explore the outdoors with confidence and style. Whether for work or recreational purposes, the FX400-XL Predator promises a reliable and exhilarating ride, making it a standout in its class.
