Product Description

Echo Power Equipment PAS-225SB

The ECHO Pro Attachment Series™ (PAS), another in a long line of labor-saving, high-value tools from ECHO, lets you purchase the tools you need when you want – it's your choice! It is the economical way to stock your tool shed or trailer. Leave it to ECHO to deliver a powerfully designed system that grows with your individual requirements.

Four power sources work with up to 17 commercial-grade attachments offering flexibility and unbeatable ECHO performance - check the Compatibility Chart to see which attachments can be used on each power source. Available attachments include string trimmers, edgers, hedge trimmers, and brush cutters among others. The PAS offers the convenience of only having to gas up and maintain one powerhead. A simple, tool-less coupler makes changing out the lower end a snap.
