Product Description

Champion 14-kW aXis Home Standby Generator

Champion's 14-kW aXis Home Standby Generator System includes a 200-Amp aXis automatic transfer switch. This fully automatic system manages your home's loads while providing quietest-in-class sound. Designed to work in sub-zero temperatures or extreme heat, this unit has a 10-year limited warranty.

FEATURES

Whole House Power

The aXis ATS200 Whole House Automatic Transfer Switch provides managed power for your home with wi-fi setup and the ability to manage unlimited high demand loads using 4 priority levels

Quietest-in-Class

Thanks to advanced sound dampening and a specially designed low-tone muffler, this generator operates at a residential-friendly 62 dBA noise level

Reliable

24-volt starting system operates in sub-zero or extreme heat (between -22° F and 104° F) with no cold weather kit necessary, plus the generator performs customizable self-diagnostic tests

Powerful

The 14-kilowatt generator provides 14,000 watts of continuous power on propane and 12,500 watts on natural gas, with no refueling, no manual operation and no extension cords needed

Champion Support

Includes a 10-year limited warranty, the longest standard warranty available on home standby generators in the market, with FREE lifetime technical support from dedicated experts
