Product Description

DR Power DR Lawn & Garden Edger - LE15081DMN

With our DR PRO Edger you can take your yard care to the next level! Cut professional quality edges anywhere on your property—along sidewalks and driveways, around flower beds, even next to curbs!

Cutting

- Number of Blades: 1

Dimensions

- Height: 38"
- Length: 41.5"
- Shipping Weight: 85 lbs
- Weight: 71 lbs
- Width: 18"
- Blade Length: 9"
- Shipping Dimensions: 28.5" x 19.7" x 21.7"

Engine

- Air Filter: Foam
- Cooling Methods: Air
- Displacement: 179cc
- Engine Type: OHV
- Ft Lbs Torque: 8.1
- Lubrication: Splash
- Make: DR Power
- Number Of Cylinders: 1

- Oil Capacity: 18.6 oz
- Oil Type: SAE 30W HD
- Starting Type: Manual

Fuel System

- Fuel Capacity: .95 gal

General

- Accepts Attachments: No
- Assembly: Yes
- Type: Push

Wheels Tires

- Dimensions: 6" x 1.5"
- Number of Tires: 4

Warranty

- Engine Warranty: 2 years residential, 90 days commercial
- Machine Warranty: 2 years residential, 90 days commercial

Material

- Cutting Blade Material: Heat treated Alloy Steel

Features

- 9" Edging Blade: Forged of heat treated alloy steel, this 2-inch-wide, hardened blade means business. Don't settle for flimsy blades that may require multiple passes, or a string edger that may never cut through to the roots!
- Adjustable Edging Depth: Depth control is right at your fingertips, with fixed positions from .5" down to 3". In areas that haven't been edged before, start high and make a second pass at a deeper setting to cut into roots and minimize regrowth.
- Professional Curb Hop Feature: An adjustable wheel allows the DR to straddle a curb, with one wheel at street level, and track with perfect stability to create clean, precise cuts. Now that's curb appeal!
- Pivoting Blade Assembly: You can adjust the blade housing fifteen degrees in either direction, or keep it vertical, depending on the style of edge you prefer. Many pros opt for vertical edges along walks and drives, with angled cuts around flower beds or other areas where a less severe look is desired.
- 4 Wheels for Maximum Stability: Many wheeled edgers have only 3 wheels which can often create a wobbly ride...and that can show up in a wobbly edge. Handheld edgers are even worse. Professionals insist on 4 wheels for maximum stability.
- Powerful DR Engine: With Overhead Valve and plenty of power (8.1 FPT, 179cc), our DR engine has plenty of muscle for cutting edges, even in tough clay soil. Available with Manual- or Electric-Start.
